TOTALMOBILE ANNOUNCES THE ALCOHOLIC BEVERAGE CONTROL MOBILE SOLUTION

With TotalMobile's Alcoholic Beverage Control (ABC) Mobile Solution, ABC departments are able to increase compliance and improve efficiency while reducing operational costs.

Westborough, MA—February 3, 2012—TotalMobile announced today their new mobile solution for Alcoholic Beverage Control (ABC) Departments. The solution allows departments to schedule and assign enforcement and inspection duties. The agents in the field can then use their mobile device to view license information and to capture inspection results as well as violations which are then seamlessly transmitted to the back-office eliminating the need for data entry.

TotalMobile offers a prepackaged mobile applications platform focused on field force automation. TotalMobile's ABC Mobile Solution provides inspectors, investigators and officers with real-time access to license information, change of ownership, previous violations, inspection codes and organization procedures on their mobile device while out in the field. Agents are now able to generate, process, and print permits, licenses and compliance certificates directly in the field. In addition to increasing efficiency in the field, TotalMobile's ABC Mobile Solution provides field officers with lone worker protection allowing them to contact emergency services in unpredictable situations.

About TotalMobile

TotalMobile has a 7-year track record providing cutting-edge mobile applications to various private enterprises, public safety, healthcare and government organizations. TotalMobile provides pre-built, configurable applications designed for intuitive use by field workers. TotalMobile allows workers in the field to capture information in real-time and relay this to back-office systems; workers reduce costs and time spent on processing data. Consilium Technologies, TotalMobile's parent company, has been in business for 25 years, providing enterprise software before pioneering enterprise mobile applications. TotalMobile is an international organization with offices in the UK and North American Headquarters in Boston.
